Trudy Banta, Karen Black, and colleagues at IUPUI whose work is featured in the 2012 Assessment Institute in Indianapolis would like to express our sincere appreciation to the sponsors, exhibitors, and advertisers who have given their support in the various ways that are described below and in the pages that follow.

Sponsors

**Platinum Sponsor – Providing Bottled Water for Participants**

**LiveText**

LiveText is a leading provider of campus-wide solutions for strategic planning, assessment, and institutional effectiveness. Our customizable and comprehensive solutions allow for seamless integration and data reporting to effectively measure outcomes-based learning goals and institutional objectives for accreditation and continuous improvement.

*LiveText*

1 South LaGrange Rd, 2nd Floor

NSSE and CSEQ
IU Center for Postsecondary Research

The Indiana University Center for Postsecondary Research hosts the National Survey of Student Engagement (NSSE), the Beginning College Survey of Student Engagement (BCSSE), and the Faculty Survey of Student Engagement (FSSE), and other tools to help institutions assess quality in undergraduate education and strengthen the learning environment. NSSE is administered annually to first-year and senior students. Participating institutions receive diagnostic information about the extent to which students engage in educational practices that research has found to be related to learning and development, customizable comparison groups, and resources to assist in interpreting and using results. NSSE’s Annual Results reports highlight findings and institutional improvement initiatives (the 2012 report will be released November 15). An updated version of the NSSE survey launches with the 2013 administration. To learn more about the survey update, visit us in the exhibit area or see our Web site: www.nsse.iub.edu.

Empowering education through innovation.

LiveText is a leading provider of e-Portfolio and assessment solutions. Our powerful data collection and reporting tools support institutions of higher education at all levels with their accreditation, outcomes assessment and institutional effectiveness needs. To learn more, visit www.livetext.com

Student Learning Assessment + Technology = Stress-free strategies for Meeting Accreditation Requirements
Presented by Ida Asner, LiveText
Monday, October 29
Tk20’s CampusWide provides a comprehensive assessment, planning, and reporting system for collecting and managing academic and non-academic departmental assessment activities to create a culture of evidence throughout your campus, allowing its users to:

- Create holistic assessment processes.
- Create course evaluations for meaningful course reflection.
- Produce surveys for data collection.
- Employ course based assessment.
- Generate an array of comprehensive and aggregate reports.

This comprehensive system has something for every institution. The new Strategic Planning feature aids institutions in aligning assessment, planning, and budgeting efforts to create a holistic campus institutional effectiveness solution.

For more information or to request a demonstration, contact us by phone (512) 401-2000, email at sales@tk20.com, or our website: www.tk20.com.
A nonprofit organization helping colleges and universities improve teaching, learning, and leadership since 1975.

- **Student Ratings of Instruction**
  - Student learning focus
  - Tailored reports that reflect targeted learning objectives
  - Diagnostic guide to teaching improvement
  - Nationally normed comparison data
  - Documented validity and reliability

- **Program Assessment and Accreditation**
  - Group Summary Report
  - Benchmarking for Learning Report

**Resources for Improvement**

These publications are available to download free of charge at www.theideacenter.org

- POD-IDEA Notes on Instruction
- POD-IDEA Notes on Learning
- IDEA Papers
Why critical thinking and quantitative reasoning?
- For democracy to flourish
- For professionals to excel
- For students to learn
- For consistently successful decision making

Why the Insight Assessment’s Tests and Measures?
- Proven valid, reliable and cost-effective
- On-line or paper-and-pencil options
- Easy to administer, efficient to use
- Norm options: 4-year college, 2-year college, graduate, and profession specific
- Individual student profiles and group reports with presentation-ready graphics
- Scoring and reporting included with all test purchases
- Available in English, Spanish, Arabic, Chinese, and many other languages
- Preview packages and initial pilot project testing purchases encouraged
- Complimentary critical thinking learning materials with test adoption
- Tests designed for graduate, undergraduate, professional I, and community college students
- Added value for admissions, assessment, advising and evidence of educational effectiveness
THE 2012 ASSESSMENT INSTITUTE IN INDIANAPOLIS

Presented by

The Office of Planning and Institutional Improvement
Indiana University-Purdue University Indianapolis

October 28-30, 2012

Indianapolis Marriott Downtown
Indianapolis, Indiana

SCHEDULE

Sunday, October 28, 2012

Pre-Institute Workshops – Special Registration Required

Track: 01A (AM)  Pre-Institute Workshop
Time: 9:00 a.m. - 4:30 p.m.  Sunday, October 28, 2012
Room: Marriott 7-9

Assessment Clear and Simple: Practical Steps for Institutions, Departments, and General Education
Emphasizing simplicity, feasibility, and effectiveness, this workshop offers a step-by-step plan for institutions, departments, and general education to build on what they are already doing, discard what is not working, get faculty on board, enhance student learning, meet the institution’s own needs, and work with external accreditors. Special attention to current national developments such as the Voluntary System of Accountability, new ePortfolio developments, projects of the AAC&U and others, assessment software, and appropriate uses of standardized tests or survey instruments.
Barbara E. Walvoord, University of Notre Dame

Track: 01B (AM)  Pre-Institute Workshop
Time: 9:00 a.m. - 4:30 p.m.  Sunday, October 28, 2012
Room: Lincoln

What to Expect When You're Assessing
This workshop is intended for faculty members and administrators who have responsibility for administering assessment activities at the program, department, or higher level. Through hands-on activities, participants will learn essential skills for supervision of the whole assessment cycle, including good reporting, tips for data analysis, avoiding assessment pitfalls, and good practices with tools like rubrics and curriculum maps. The workshop is appropriate for those with little assessment experience as well as those who would like to further develop their existing practices to create sustainable and meaningful assessment programs.
David A. Eubanks, Johnson C. Smith University; Kaye Crook, Coker College; and Teresa Flateby, Georgia Southern University

Primary Tracks:  (AC) – Accreditation; (AM) – Assessment Methods; (CP) – Capstone Experiences; (CC) – Community College; (CE) – Civic Engagement; (EP) – ePortfolios; (FD) – Faculty Development; (FY) – First-Year Experiences; (GE) – General Education; (MJ) – Majors; (NI) – NILOA, and (SD) – Student Development
**Track: 01C (AM)**  
**Time:** 9:00 a.m. - 4:30 p.m.  
**Room:** Santa Fe  
**Pre-Institute Workshop**  
**Sunday, October 28, 2012**  
**Beginners and Advanced**

**Assessment 101**
Using the Assessment 101 workbook, participants will be guided through the development of an assessment plan for one program, plan their data collection and analysis, and help each other to identify many ways the results can be used to improve student learning or institutional processes.

Wanda K. Baker, Council Oak Assessment and Evaluation

**Track: 01D (AM/CC)**  
**Time:** 9:00 a.m. - 4:30 p.m.  
**Room:** Marriott 1  
**Pre-Institute Workshop**  
**Sunday, October 28, 2012**  
**Beginners**

**Learning Outcomes Assessment: A Step-By-Step Approach**
Assessment can seem like a daunting task. Where do you begin? What do you assess? How do you assess? Do you sample? How do you sample? How do you use the results? This workshop is intended for faculty and administrators who are responsible for assessment at the program level. Using a step-by-step approach, participants will be guided through the process of writing appropriate learning outcomes, selecting appropriate assessment methods and instruments, sampling and data collection, and using assessment results to improve learning and teaching. The facilitators will further engage participants by providing hands-on activities, practical examples, and lessons learned.

John G. M. Frederick, Miriam Frances Abety, Lauren Gach, and Barbara Rodriguez, Miami Dade College

**Track: 01E (AM/CC)**  
**Time:** 9:00 a.m. - Noon  
**Room:** Marriott 2  
**Pre-Institute Workshop**  
**Sunday, October 28, 2012**  
**Beginners and Advanced**

**Program Review: Purposes, Perspectives, and Processes**
Program Review is a widely acknowledged approach to improving quality in higher education. This workshop identifies the purposes of program review and examines its evolution and impact in helping colleges and universities improve student learning outcomes. Perspectives of faculty, chairs, academic unit leaders, and central administrators will be shared. The process of planning for, conducting, and using the results from program review will be highlighted.

Karen E. Black and Stephen Hundley, IUPUI; and John V. Moore, Community College of Philadelphia
**Track: 01F (AM)**  
**Time:** 9:00 a.m. - Noon  
**Room:** Marriott 10  
**Pre-Institute Workshop**  
**Sunday, October 28, 2012**  
**Beginners**

**Pivot Table Basics for Assessment Professionals**  
Pivot tables can be a useful way to display assessment results and highlight key findings. This workshop will help assessment professionals learn how to create, use, format, and link pivot tables using Excel 2010. Participants will have the opportunity to practice their skills by creating their own pivot tables using assessment data.  
**Steven S. Graunke, IUPUI**

**Track: 01G (FD)**  
**Time:** 9:00 a.m. - Noon  
**Room:** Marriott 4  
**Pre-Institute Workshop**  
**Sunday, October 28, 2012**  
**Beginners and Advanced**

**Critical Testing and Measurement Concepts for Higher Education Assessment Professionals**  
Effective assessment professionals can benefit from an understanding of testing and measurement concepts such as test/rubric construction and administration, reliability, and validity. This session will involve identification of needs followed by a structured and facilitated discussion of relevant testing and measurement concepts and resources available to meet those needs.  
**Jessica L. Jonson, University of Nebraska - Lincoln**

**Track: 01H (FY)**  
**Time:** 1:30 - 4:30 p.m.  
**Room:** Marriott 3  
**Pre-Institute Workshop**  
**Sunday, October 28, 2012**  
**Beginners and Advanced**

**Implementing and Assessing High-Impact Practices**  
"High-Impact Educational Practices" have been advocated as effective strategies for promoting active learning and increasing rates of student retention and engagement (AACU, 2008). High-Impact Practices include First-Year Seminars; Learning Communities; Service-Learning; Capstone Courses and Projects; Common Intellectual Experiences (core curriculum); Diversity/Global Learning; Collaborative Assignments and Projects; Undergraduate Research; and more. This workshop will provide you with an overview of High-Impact Practices and how they are being implemented on college campuses. Additionally, you will learn how to assess high-impact practices to ensure that the strategies are positively affecting students’ learning, academic success, and persistence rates. Presenters will describe how quantitative and qualitative methods have been used to assess the practices. Presenters will also share some recent research on high-impact practices and how these practices can take many different forms, depending on learner characteristics and on institutional priorities and contexts.  
**Michele J. Hansen, Kathy E. Johnson, and Sarah Baker, IUPUI**

**Primary Tracks:**  
(AC) – Accreditation; (AM) – Assessment Methods; (CP) – Capstone Experiences; (CC) – Community College; (CE) – Civic Engagement; (EP) – ePortfolios; (FD) – Faculty Development; (FY) – First-Year Experiences; (GE) – General Education; (MJ) – Majors; (NI) – NILOA, and (SD) – Student Development
**Track: 01I (SD)**
**Time:** 1:30 - 4:30 p.m.  
**Room:** Marriott 2  
**Pre-Institute Workshop**  
**Sunday, October 28, 2012**  
**Beginners and Advanced**

**Don’t Fail to Plan: Developing and Assessing a Student Affairs Strategic Plan**
This workshop will describe student affairs strategic planning processes and the approaches used to evaluate the plans. A specific example of a division that established, executed, and successfully completed the goals of a strategic plan will be discussed. One reason for the success of the process was the comprehensive evaluation and assessment component. The measures used in the evaluation included institutional data, departmental data, and qualitative assessments. Participants will have the opportunity to determine how such a process could be facilitated on their campus and identify appropriate measurement techniques. The links between strategic planning at the division level, institution level, professional standards, and accreditation requirements also will be discussed.

Robert W. Aaron, IUPUI; and A. Katherine Busby, Tulane University

**Track: 01J (AM)**
**Time:** 1:30 - 4:30 p.m.  
**Room:** Marriott 10  
**Pre-Institute Workshop**  
**Sunday, October 28, 2012**  
**Beginners**

**Outcomes Assessment Nuts and Bolts**
Outcomes assessment should help both program planning and accountability reporting. This workshop focuses on the steps needed to accomplish these goals, including stating outcomes, selecting assessment methods, describing your assessment process and results, and using results in planning. Exercises help participants ask “How does this apply to my institution?”

Ephraim I. Schechter, HigherEdAssessment.com

**Track: 01K (CP/CC)**
**Time:** 1:30 - 4:30 p.m.  
**Room:** Marriott 4  
**Pre-Institute Workshop**  
**Sunday, October 28, 2012**  
**Beginners and Advanced**

**Capstone Experiences and Their Uses in Learning and Assessment: Fundamental Approaches and Strategies**
This workshop explores how capstone experiences from a variety of disciplines can be used to enhance and document student learning outcomes. Purposes of capstones will be presented, organizing approaches to capstones will be discussed, powerful pedagogies employed in capstones will be highlighted, and ways to tie capstones to assessment activities—both in the discipline and in general education—will be shared. Case studies, sample syllabi and assignments, and methods of developing and involving faculty also will be examined.

Stephen P. Hundley, IUPUI; and John V. Moore, Community College of Philadelphia

---

**Primary Tracks:** (AC) – Accreditation; (AM) – Assessment Methods; (CP) – Capstone Experiences; (CC) – Community College; (CE) – Civic Engagement; (EP) – ePortfolios; (FD) – Faculty Development; (FY) – First-Year Experiences; (GE) – General Education; (MJ) – Majors; (NI) – NILOA, and (SD) – Student Development
Monday, October 29, 2012

7:30 – 8:45 a.m. ~ Continental Breakfast ~ Continental breakfast is located in the second floor Marriott 5 & 6 Foyer

Track: 02A
Time: 8:45 - 10:00 a.m.
Room: Marriott 5 & 6

Plenary Session

Trudy W. Banta – Welcome and Introductions
Professor of Higher Education and
Senior Advisor to the Chancellor for Academic Planning and Evaluation
Indiana University-Purdue University Indianapolis

Place Diversity at the Center of Assessment
Research shows how diversity is central to the educational and public service mission of an institution. Dr. Hurtado will talk about the role diversity research plays on a campus in terms of assessing how a campus is making a difference. Using examples from institutions and information on campus climate, institutional practices and outcomes on student surveys, she details how a proactive response, rather than reactive one can result in authentic diverse learning environments and student preparation for a pluralistic democracy.

Sylvia Hurtado
Professor and Director
Higher Education Research Institute, UCLA

KEYNOTE PANEL

Thomas A. Angelo
Professor of Higher Education, Pro Vice-Chancellor (Curriculum and Academic Programs), and Director, Curriculum, Teaching and Learning Centre
La Trobe University, Australia

Peter T. Ewell
Vice President
National Center for Higher Education Management Systems (NCHEMS)
Boulder, CO

George D. Kuh
Director, National Institute for Learning Outcomes Assessment (NILOA), Indiana University Bloomington and Strategic National Arts Alumni Project (SNAAP)

Jeffrey A. Seybert
Director, National Higher Education Benchmarking Institute
Johnson County (KS) Community College

Primary Tracks: (AC) – Accreditation; (AM) – Assessment Methods; (CP) – Capstone Experiences; (CC) – Community College; (CE) – Civic Engagement; (EP) – ePortfolios; (FD) – Faculty Development; (FY) – First-Year Experiences; (GE) – General Education; (MJ) – Majors; (NI) – NILOA, and (SD) – Student Development
Track Keynotes

Track: 03A (FD)
Time: 10:15 - 11:15 a.m.
Room: Marriott 1-4

**Applying the Learning Paradigm to Faculty Development in Assessment**
Applying the Barr & Tagg Learning Paradigm (1995) and our knowledge of adult learners, this session will attend to questions and sensitivities that are critical to the preparation and planning phase of faculty development. The implementation phase will be examined in the context of constructivist and engaged pedagogical examples appropriate for adult learners and the curricular focus on assessment. Finally, the issues of designing assessment to determine faculty learning about assessment will be examined and creative approaches will be provided.

Amy Driscoll, Carnegie Foundation for the Advancement of Teaching

Track: 03B (SD)
Time: 10:15 - 11:15 a.m.
Room: Marriott 7-10

**Applying Student Development Principles to Your Assessment Plan**
Student development theories and practices are foundational in successful academic advising, first-year seminars, and many other high-impact practices in higher education. So what can they tell us about how to improve assessment? This session focuses on how these practices can be applied to assessing learning outcomes in and out of the college classroom. The focus will be on human developmental stages, motivation theory, finding “bright spots” of success, and leveraging the power of peer-to-peer relationships to improve assessment practices. Academic and student affairs assessment practitioners will be challenged to look anew at student development theories as principles to apply in assessing learning outcomes.

Randy L. Swing, Association for Institutional Research

Track: 03C (FY)
Time: 10:15 - 11:15 a.m.
Room: Florida/Illinois

**Lessons from the Wabash National Study about Creating and Assessing Effective First-Year Programs**
The vast majority of colleges and universities have created first-year programs for at least some portion of their entering students. To bolster their effectiveness, these programs often incorporate high-impact practices such as first-year seminars, learning communities, and service learning. Although many institutions have created first-year programs that include these high-impact practices, it is important to understand what's behind the effectiveness of high-impact practices. Using data from the Wabash National Study, we will review the teaching practices and student experiences that support the successful implementation of high-impact practices, and consider the implications of these findings for assessing first-year programs.

Charles Blaich, Wabash College

**Primary Tracks:** (AC) – Accreditation; (AM) – Assessment Methods; (CP) – Capstone Experiences; (CC) – Community College; (CE) – Civic Engagement; (EP) – ePortfolios; (FD) – Faculty Development; (FY) – First-Year Experiences; (GE) – General Education; (MJ) – Majors; (NI) – NILOA, and (SD) – Student Development
Civic Learning in Higher Education: Assessing What We Really Need to Know

Civic learning used to be measured only by how many students voted, whether they could name the items in the Bill of Rights, and how many hours they invested in a semester to service to the community. Today, the multiple and complex dimensions of civic learning demand we assess more comprehensive civic capacities and assess those differently. More two- and four-year colleges and research universities have embraced educating students to become informed, responsible citizens locally and globally as a core expectation of a college education. This session will focus on the evolving frameworks for civic learning and democratic engagements, particularly as they are articulated in a national report, A Crucible Moment: Civic Learning and Democracy’s Future, released at a White House event last January in cooperation with the Department of Education. As lead author of that report, Caryn McTighe Musil will describe the range of knowledge, skills, values, and action that civic learning now encompasses as well as the range of disciplines, experiences, and locales where such capabilities are refined—both in and out of the classroom and within and outside campus boundaries. She will also lay out some of the new efforts to assess such learning as represented in AAC&U’s VALUE rubrics, AASCU’s American Democracy Project, Lumina’s Degree Qualifications Framework, and ePortfolios.

Caryn McTighe Musil, Association of American Colleges and Universities

What You See Is Less Than We Need: Communicating and Using Evidence of Student Learning

This session will feature the current and forthcoming work of the National Institute for Learning Outcomes Assessment (NILOA), which is in its fourth year as a proponent of best-practices in assessing student learning outcomes. A portrait of the current landscape of learning outcomes assessment in the U.S. will be presented, drawing on a variety of NILOA’s work including surveys, webscans, case studies, focus groups, and commissioned papers. Special emphasis will be given to communicating results of assessment and using assessment results for improvement.

George Kuh and Natasha Jankowski, National Institute for Learning Outcomes Assessment (NILOA)

ePortfolios As Archives: What We Might Gain, What We Might Lose, and What Difference It Could Make

For some time, I’ve been thinking about how we might approach ePortfolios if we viewed them as archives of material. For one thing, students might include many more materials than simply the work they create in class. For another, we might see ePortfolios as a serious
intellectual space where knowledge is made through working with the materials—knowledge that students made for themselves as well as for others, much as curators do. And for yet another, the kinds of conversations we might have with students about their ePortfolios might be very different, keyed much less to how well (or how poorly) they did in a class or program or major and much more to what they know and can do, and how they came to this knowing and can doing. Of course, no metaphor is perfect; in invoking ePortfolios as archives, we’d lose something, too, perhaps most of all our hopes that portfolios will play a larger role in assessment contexts. How we might have the best of both worlds—how to have the richness of an archive as a conceptual base for ePortfolio and an ePortfolio method of assessment—will be the focus of this talk.

Kathleen Blake Yancey, Florida State University

Track: 03G (CP)  
Time: 10:15 - 11:15 a.m.  
Room: Indiana Ballroom G  
Track Keynote  
Monday, October 29, 2012  
Beginners and Advanced

Capstones: Creation, Cultivation, and Assessment  
Capstone requirements as assessments of student learning date back at least to the European Middle Ages and, elsewhere, even earlier. Accordingly, many methods and approaches already exist for creating, growing, and maintaining capstones in the academic environment. Woven among the methods are principles that appear regularly in effective and enduring capstone programs. This interactive seminar invites participants to explore the assessment principles in particular and then conceive how they might apply these principles to their own existing or new capstones.  

Douglas J. Eder (Emeritus), Southern Illinois University Edwardsville

11:30 a.m. – 12:30 p.m. ~ Optional Institute Luncheon in Marriott 5 & 6  
Meal Ticket Required (Optional Purchased Meal)

WASC 2.0: Getting to Learning Results  
In 2001, WASC introduced an accreditation review process that put heavy emphasis on “educational effectiveness.” In response, institutions built their assessment infrastructure and greatly increased assessment activity. But the “results” they reported focused on how they were improving the assessment process; vanishingly little was said about how well students were actually performing. The 2013 WASC Handbook of Accreditation promises to change that.  

Barbara Wright, Western Association of Schools and Colleges

12:45 a.m. – 5:00 p.m. ~ Sponsor Presentations (See page 53 for details)
**Concurrent Sessions**

**Track: 04A (AM)**
**Time:** 12:45 - 2:00 p.m.
**Room:** Marriott 1

**Data Management for Assessment**
Managing data to ensure access in the right format for the right people at the right time is essential to ensure that assessment produces the necessary results. This presentation describes why ensuring consistency and transparency in data collection and processing is important to support a data-informed assessment process.

*Beena George, University of St. Thomas*

**Text Mining Assessment Data**
Academic assessment often involves collecting large amounts of unstructured text data. Analyzing and reporting these data is labor intensive and subject to the reporter’s biases. Text mining software (IN-SPIRE™) is presented as a solution to understanding and presenting the results of collected text data. Pros, cons, and usefulness of text mining will be discussed.

*David Stockburger, US Air Force Academy*

---

**Track: 04B (GE)**
**Time:** 12:45 - 2:00 p.m.
**Room:** Marriott 2

**Effects of Tier 1 Differentiation and Intervention on Third Grade Students’ Skills – How Did They Score in Reading Fluency, Word Recognition, and Comprehension?**
This presentation will describe a study involving third grade students. General education teachers were given training in differentiated reading instruction utilizing carefully graded reading passages. Students re-read passages in different conditions and took passages home to practice. Assessment results included pre- and post-testing with several standardized and informal measures.

*Ruth E. Jones and Tina Grant, Ball State University*

**Faculty Approaches to Critical Thinking in the Disciplines – Implications for General Education**
Analysis of interviews and focus group discussions revealed that faculty who teach General Education approach CT using disciplinary content, contexts, methods and epistemologies. Findings revealed that they experimented with pedagogical approaches to CT and did not explicitly assess CT leading to what I described as a “hopeful pedagogy to CT”.

*Mark C. Nicholas, Oklahoma State University; and Tanmay Pramanik, Transitional Association of Christian Colleges and Schools*

**Creating a Sustainable Assessment Program in the UAE**
This presentation describes how Zayed University’s transition, from simply conducting assessment to creating a sustainable institution-wide assessment program, was implemented. It will describe the specific steps that have been taken to move from a fragmentary approach to one which is systematic, sustainable, faculty-driven, and supported by administration.

*Kevin W. Schoepp and Susan Jones, Zayed University*
Track: 04C (AM)  Concurrent Session
Time: 12:45 - 2:00 p.m.  Monday, October 29, 2012
Room: Marriott 3  Beginners and Advanced

From Input, to Information Literacy, to Impact: Assessing Library-Based Learning
Academic libraries are often associated with teaching and assessing information literacy. More recently, libraries are being seen as “meta-colleges” or “learning commons” and are thinking beyond information literacy toward institutional impact. Participants in this interactive workshop will explore perspectives and practices for assisting our library colleagues in meaningful assessment.
Melanie Booth, Nancy Hoover, Sione Aeschliman, and Kimberly Firth, Marylhurst University

Track: 04D (AM)  Concurrent Session
Time: 12:45 - 2:00 p.m.  Monday, October 29, 2012
Room: Marriott 4  Beginners

The Assessment Journey: Planning, Mapping, Implementing, Evaluating, and Improving
This presentation will focus on the process of building an assessment plan and the tools needed to implement it. It will showcase a five-year journey of reinvigorating an academic program through an innovative assessment system that utilizes graphic systems and a delivery method that makes the process of assessment easier to understand, evaluate, and communicate to faculty and students alike.
Sue Vessella and Behnoush McKay, Woodbury University

Track: 04E (AC)  Concurrent Session
Time: 12:45 - 2:00 p.m.  Monday, October 29, 2012
Room: Marriott 7  Beginners and Advanced

When Accreditors Change the Rules, Why Shoot for Mediocrity?
Using updated accreditation standards to drive curricular change allows NYCC to move beyond the status quo. We will engage participants in the process we have developed to utilize accreditation as a change agent for cultivating faculty buy-in while mapping our programmatic curriculum to develop a visual roadmap to quality improvement.
Karen A. Bobak, Patricia Merkle, Jennifer vonHahmann, Wendy Maneri, and Kristina Petrocco-Napuli, New York Chiropractic College

Track: 04F (CP/EP)  Concurrent Session
Time: 12:45 - 2:00 p.m.  Monday, October 29, 2012
Room: Marriott 8  Beginners

Capstone Course ePortfolios – Insights Into Community-Based Learning General Education Outcomes
Portland State University has used course-based ePortfolios to assess student learning in its community-based general education Capstone courses for the past four years. This session will cover the course ePortfolio assessment process, including findings, key insights about general education outcomes in a service-learning context, and surprise discoveries that have informed new ways of thinking about Capstone practice.
Rowanna L. Carpenter and Heather Petzold, Portland State University
Text to Task: High-Impact Practices and the Department Review
The Text to Task program features high-impact educational practices focused upon community-based learning. Assessment of curricular improvement was based upon students’ progression from text-based knowledge to demonstrations of proficiency on real-world tasks. A decade of Text to Task student portfolios formed the basis of a departmental review document.
Sandra A. Burkhardt and Anthony Rotatori, Saint Xavier University

All-In-One Assessment: Grading, Course, Program, and General Education Assessment
Most colleges and universities are engaged in a diverse range of assessment processes including assessment of courses, programs, and general education learning outcomes. Prince George’s Community College has developed a relatively unique assessment methodology which is producing a comprehensive data set through a singular assessment process.
W. Allen Richman, Iris Antoons, and Bridget Brennan, Prince George's Community College

A Happy Convergence of Learning Research and ePortfolio Technology
Since the 1980s, the consensus among adult learning researchers in psychology, education, linguistics, anthropology, cognitive science, and social science is that learning starts with experience, not with "telling." ePortfolios provide the means to move to a new form of learning based on that consensus.
Trent Batson, AAEEBL; and Susan Kahn, IUPUI

Bridging the Gap to Develop a Service-Minded Institution: Stories from an Institutional Self-Assessment Model for Service Engagement in Higher Education
Presenters will share aggregate data from over 20 campuses that completed an institutional planning rubric for service engagement that brought together representatives from Academic/Student Affairs to guide institutional work. Participants will learn about the development and utilization of the tool, and how to lead a similar process on their campuses.
J.R. Jamison and Maggie Stevens, Indiana Campus Compact

Concurrent Session  
Monday, October 29, 2012  
Beginners and Advanced  

Assessment 2.0: A Systematic, Comprehensive, and Sustainable Model Combining Assessment and Faculty Development  
“Assessment 2.0.” Each year one student learning outcome is targeted and assessment tools are selected. During the following implementation year, activities are conducted to educate the campus community (e.g., workshops, book studies, etc.). This integrated plan may serve as a model for other institutions.  
Tami Eggleston and Christine Bahr, McKendree University

Primary Tracks:  (AC) – Accreditation; (AM) – Assessment Methods; (CP) – Capstone Experiences; (CC) – Community College; (CE) – Civic Engagement; (EP) – ePortfolios; (FD) – Faculty Development; (FY) – First-Year Experiences; (GE) – General Education; (MJ) – Majors; (NI) – NILOA, and (SD) – Student Development
Taming the Testing Component of the VSA
The presenters were members of two of the task forces that recommended—despite some of our reservations—the criteria for participation and reporting in the Voluntary System of Accountability (VSA) in 2007. Now—four years and several studies later—the VSA developers have taken action to modify the most controversial VSA component: the requirement that institutions administer one of three tests of generic skills and report value-added measures. We will reveal our reservations about these measures.

Trudy W. Banta and Gary R. Pike, IUPUI

What Matters for Whom: Evaluating Student Learning Programs for Multiple Stakeholder Audiences
This session examines the challenges of effectively evaluating student learning programs for multiple stakeholders (e.g., faculty, students, administrators), with sometimes conflicting priorities, using two peer-learning programs as case examples. The presenters share their approaches to meeting those challenges and consider what additional measures may be called for.

Marina Micari and Denise Drane, Northwestern University

From Confusion to Conversation: Improving Student Learning and Assessment One Step at a Time
Two years ago Rogers State University changed the process of peer reviewing its student learning reports. The old method was detached, insular, and unpopular. The current system emphasizes dynamic face-to-face interaction among faculty. In addition to gaining university-wide support, the new approach has spawned unanticipated but very welcome benefits.

Monica K. Varner and Steve Housel, Rogers State University

Assessing General Education: Are We Improving Student Learning Over Time?
Butler University implemented a new Core Curriculum organized around student learning objectives. Simultaneously our first-year National Survey of Student Engagement (NSSE) results have substantially increased over time, which suggests positive outcomes of this new initiative. We offer an institutional example of using NSSE to assess curricular improvements and closing-the-assessment-loop.

Jennifer Buckley and Laura Behling, Butler University
Rubric Assessment: Results of a 10-Institution Study of Information Literacy Skills
This presentation describes RAILS (Rubric Assessment of Information Literacy Assessment), a federally-funded project that reveals 1) a general picture of information literacy learning, 2) detailed inter-rater reliability data including a comparison of inter-rater reliability measures, 3) improvements resulting from rubric assessment, and 4) faculty opinions on barriers to rubric assessment.
Megan J. Oakleaf, Syracuse University; and Carrie Donovan, Indiana University

How Can We Say We Are Improving? Inter-Rater and Intra-Rater Reliability Issues
Inter-rater and intra-rater reliability issues are not often the topic of discussion at assessment conferences. However, these subjects are important and need to be part of the assessment process. In this session, we will share what we have done to deal with these topics and what other possible approaches may be.
Josephine S. Rodriguez and Lorraine Santori, Western New England University

The Banner Breakthrough: Overcoming Obstacles to Adopting a Culture of Student Learning Outcomes Assessment
Mid-sized public university demonstrates a breakthrough approach to overcoming cultural inertia as well as common organizational and technological obstacles to student learning assessment. This approach has been developed utilizing best-practices in learning goal alignment at all levels of the institution and implemented utilizing creative and innovative change management techniques.
Karen L. Shumway, Angelo State University

ePortfolio Jury Assessment as Faculty Development
Faculty evaluating Spelman's electronic First-Year Writing Portfolios come from across disciplines to read, score, calibrate, and resolve discrepancies. Assessment examines student writing and, indirectly, core courses, yet participants perceive their work as faculty development. Faculty report increased confidence in assigning and evaluating essays, applying criteria to a variety of performances, and developing formative comments.
Anne B. Warner, Tarshia Stanley, and Michelle Hite, Spelman College
Establishing an Assessment Culture: A Case Study
Meeting the increasingly rigorous accreditation standards for assessment can be especially onerous when centralized assessment practices are not already in place. This session will provide one example of creating a culture of assessment and encourage a dialogue from participants about what has and has not been successful for their institutions.
Adam E. Christensen, Chad L. May, and Rochelle Robins, Holy Family University

Piloting a General Education Capstone Experience: Assessing Student Learning and Institutional Practices
This presentation will introduce the use of pilot courses of a senior interdisciplinary capstone experience to assess student learning outcomes and the institution's general education program. Participants will explore various assessment methods and techniques, evaluate assessment tools and use assessment information to improve student learning and institutional practices.
Rebecca Dunn, Heidi Echols, and Elizabeth Novicki, Salem College

Assessment for Learning: Instructors’ New Understandings and Next Steps in the Journey
This interactive workshop follows up on last year’s “Readers’ Theatre” workshop about the development and implementation of formative assessment in a teacher education program. This year participants will be working collaboratively to provide the presenters with feedback on the assessment structures and the theoretical framework for writing about them.
Gina B. Yoder, Trish Weis, Anne Ociepka, and Carol Matern, IUPUI

Twenty Years of a Performance Assessment: How it Evolved and What We Have Learned
For twenty years a 2-year college graphic design program has implemented a comprehensive performance assessment plan. The model measures students’ abilities, item difficulties, raters’ severity, and scoring rubric effectiveness. Student learning outcome measures are used for program improvements. Learn how this performance assessment model was developed, implemented, and evolved.
Jere J. Turner, Manchester Community College; and Hui-Ling Chen, Saint Anselm College
Use of ePortfolio for Accreditation and Program Assessment in a Newly Developed DNP Program
A new doctorate of nursing practice (DNP) program utilized its ePortfolio as a curricular frame designed to meet accreditation standards. The ePortfolio streamlined the initial accreditation visit with optimal results. Faculty are also using the ePortfolio to guide their program-level assessment. The process, rubric, and first round results will be presented.
Julie Meek and Mary Beth Riner, IUPUI

Civic and Social Accountability: Assessment and a Rewarding Collaboration
The Citizenship Committee at Southwestern Illinois College developed and administered a survey of students' knowledge, dispositions, and behavior regarding civic and social accountability. Careful analysis of results led to a collaboration with College Activities to develop and implement a college-wide program of activities to address issues gleaned from the assessment.
Mitchell J. Robertson, Carolyn Myers, and Joyce Ray, Southwestern Illinois College

Using Predictive Analytics to Impact Retention: Effective Use of Assessment Data
Predictive analytics offers a proven way to identify at-risk students early, allowing for timely interventions. We discuss the efficacy of predictive modeling in retention, the application of that predictive model at our institution, and how results are packaged and delivered into hands of faculty/staff who directly intervene with at-risk students.
Jason M. Bentley, Central Michigan University; and Darlena Jones, Educational Benchmarking Inc.

Evidence of Co-Curricular Student Learning: Building Capacity, Measuring Results
Satisfaction is one thing; learning is entirely another! The University at Albany's systemic approach to developing specific, measureable learning outcomes and identifying direct methods for their evaluation has resulted in evidence of student learning outside the classroom. The Student Learning Project, a division-wide initiative, is built on a student learning outcomes framework with emphasis on direct measures of learning.
Michael N. Christakis, University of Albany

**General Education Assessment at Texas A&M University**
With approximately 50,000 students, 40,000 of whom are undergraduates, Texas A&M University implements a detailed planning and sampling process that fosters the gathering of meaningful information on the achievement of general education learning outcomes. This presentation is focused toward faculty, administrators, and staff who are involved with institution-level assessment of general education learning outcomes. Planning is possibly the most important step of the assessment process. This "Four-Tiered Approach" provides a framework for any institution, large or small, to successfully design and implement a general education assessment plan that results in meaningful results on institution-wide student achievement.

**Doing Assessment as if Learning Matters Most: Engaging Faculty and Students with Simple, Practical, Powerful Techniques**

Faculty and students will not willingly use assessment to improve learning until they are convinced that doing assessment: (1) Is not a threat; (2) Is in their self-interest; and (3) Is not burdensome. To help you convince them, this fast-paced, highly interactive, hands-on session provides research-based guidelines and practical strategies for learning-centered (and faculty-directed) assessment at classroom and course levels. You will try out at least seven simple, powerful assessment strategies, and leave with two or three to apply immediately on campus. A handout with related examples, materials, and references for follow up is provided.

Assessment for Career Technical Education

Los Angeles Trade-Technical Center (LATTC) is the largest trade-technical college on the west coast. LATTC is composed of 75% Career Technical Programs. Learn how the college established an assessment system that was CTE friendly. Attendees will have a chance to experience how to create learning outcomes, program outcomes, and how to assess them for CTE areas.

Tom Vessella, Los Angeles Trade-Technical College

Primary Tracks: (AC) – Accreditation; (AM) – Assessment Methods; (CP) – Capstone Experiences; (CC) – Community College; (CE) – Civic Engagement; (EP) – ePortfolios; (FD) – Faculty Development; (FY) – First-Year Experiences; (GE) – General Education; (MJ) – Majors; (NI) – NILOA, and (SD) – Student Development
E-Portfolios for General Education and Beyond: The Development Process
E-portfolios can provide both formative and summative information about learning, thus their appeal for documenting evidence of learning to internal and external stakeholders. This session focuses on the steps taken by a large, public institution to launch a campus-wide general education e-portfolio initiative. Insights about the development process are shared.
Maureen Snow Andrade, Utah Valley University

ePortfolio Metadata: Using Tags to Increase Authenticity in Assessing Outcomes
Goshen College uses student ePortfolios in assessing the college’s new Core Curriculum. This session will focus on how the use of tags associated with learning outcomes helps raise the level of authenticity of assessment results. Use of the tags will also support faculty learning and enable us to discuss results with others while remaining grounded in our local context.
Ross Peterson-Veach, Goshen College

Successful Gen Ed Assessment with ePortfolio
In 2010, Linfield College developed a general education assessment plan requiring student exemplars. After an unsuccessful attempt to use their existing LMS, Linfield adopted an e-portfolio system. Students now use it to submit artifacts and reflections for six Modes of Inquiry. We present the lessons learned and benefits achieved.
Martha E. VanCleave, Linfield College

Assessing on Native Time: Civic Engagement in a Native American Healthcare Course
This presentation examines an interdisciplinary course involving nursing health care delivery and humanities service-learning among the Ojibwa. Presenters discuss assessing divergent disciplines and civic engagement trips and how to utilize results to improve course content, make a significant contribution to community, tie to larger college assessment, and enhance the experience for all involved.
Holly L. Baumgartner, Lourdes University; and Kathleen E. Jenks, Mercy College

Developing Civic-Minded Graduates: The Importance of Civic Mentoring
Higher education institutions are responsible for graduating students who possess civic knowledge, skills, and dispositions to be active participants in society. There is a need to understand how students develop civic-mindedness. The literature on student-faculty interactions implies faculty may have the potential to play a major role in student civic growth and development. This study examined the nature of student-faculty interactions to understand how civic mentoring correlates to student development of civic-mindedness, as measured by the Civic-Minded Graduate scale. Results assessed student civic growth as a result of their participation in a service-based scholarship program and the extent to which student interactions with a civic mentor contributed to their civic growth.
Kristin Norris, Julie Hatcher, and Briana Miller, IUPUI

**Developing and Assessing an Electronic Personal Development (PDP) for First-Year Students: Using Mixed Methods and Authentic Evidence**

This presentation focuses on the development and assessment of an electronic Personal Development Plan (ePDP) process: a flexible online portfolio and web-page presentation tool that allows students to plan, mark progress, reflect on, and integrate their college learning experiences. We will also discuss how authentic evidence provided by the ePDP is used to assess direct student learning outcomes.

*Cathy Buyarski, Michele J. Hansen, and Daniel J. Trujillo, IUPUI*

**Are Students Learning? Seeking Answers in an Online Environment Using Program Review Processes**

As schools that serve online students strive to meet the needs of students, faculty, and staff, it is important to ensure data-driven decision-making, academic quality, and the continuous improvement of courses and programs. To assist with this process, a triennial program review process at an online University has been developed to assess and validate program content and curriculum, evaluate student learning, build common ground by engaging the whole community in the review process, and provide strategic direction for continuous improvement of the program.

Embedded in the program review process, Student Learning Assessment Reports (SLAR’s) are used to assist faculty and administrators in answering the question, “How do you know your students are learning?” The SLAR brings together the alignment of institutional outcomes with program objectives, course objectives, and specific key course assessments. Program directors provide initial information on alignment, and receive annual updates of student learning data for their program, including key course assessments, capstone assessments, and nationally normed exams. By providing the student learning data to the program director, the focus can be on analyzing and interpreting, rather than just gathering the information. The process has resulted in the re-alignment of curriculum/objectives,
continuous improvement of courses and programs based on data, and the ability to track and monitor student learning on a regular basis. The SLARs are relatively low-tech and use flexible Excel spreadsheets, which required no additional software to implement. Data are provided using Tableau dashboards, which provide up-to-the-minute data from our learning management system, Sakai.

Jennifer Stephens Helm, Julie Anderson Atwood, and Chad Patrizi, American Public University System

Track: 06N (FD)

Dual Use of the Public Speaking Competence Rubric (PSCR): Applications in Assessment and Pedagogy

This workshop will introduce participants to the Public Speaking Competence Rubric. At Millersville, the PSCR is used in the classroom and for both general education and departmental assessment. In this session, participants will learn about the components of the PSCR, its development, and how to use it to evaluate speeches.

Lisa Schreiber and Lisa Shibley, Millersville University of Pennsylvania

Track: 06P (AM)  
Time: 3:45 - 5:00 p.m.  
Room: Marriott 5  
Beginners and Advanced

Efficient Feedback for Effective Learning: How Less Can Be More

Doing assessment without giving feedback is just a compliance exercise. Feedback is critical to students’ motivation, study strategies, and learning success. Yet our students regularly complain about the quantity, timeliness, and usefulness of feedback. Faculty argue that giving useful feedback is time-consuming, difficult, and frustrating; particularly when students fail to use (or even read) our comments. This interactive session offers research-based guidelines for more efficient and more effective feedback. It also demonstrates several simple, practical, time-saving strategies for improving the odds that students (and faculty) will value, read/hear, understand, and use feedback to improve learning – and teaching.

Thomas A. Angelo, La Trobe University, Australia

---

Primary Tracks:  (AC) – Accreditation; (AM) – Assessment Methods; (CP) – Capstone Experiences; (CC) – Community College; (CE) – Civic Engagement; (EP) – ePortfolios; (FD) – Faculty Development; (FY) – First-Year Experiences; (GE) – General Education; (MJ) – Majors; (NI) – NILOA, and (SD) – Student Development
Leading Assessment-Based Change—Strategies for Faculty Buy-In and Development
Leading change is always a challenge, and particularly so when it involves engaging stakeholders in outcomes-based assessment practices and taking action based on resulting findings. This presentation draws on leadership models and first-hand experience to offer practical strategies for getting faculty buy-in and supporting related faculty development.
Maureen Snow Andrade, Utah Valley University

A Holistic Approach to Life-Long Learning: The Importance of Intentional Co-Curricular Programming for Effective Student Development and Success
This session will expose individuals to best-practice models for collaboration of co-curricular and intentional learning practices for student development and success. Moreover, this presentation will demonstrate the importance of creating partnerships among academic and student affairs when developing co-curricular learning opportunities for global and holistic learning.
Jaime Anzalotta and John G. M. Frederick, Miami Dade College

Assessment: Truths, Myths, and Misconceptions
What we assess defines what we value, and what we value is what we assess. How we determine what to assess and how to assess it is no easy task. This poster will explore three truths and nine myths/misconceptions about assessment.
Jim Fulmer, University of Arkansas

Demystifying Faculty Involvement in Program-Level Student Learning Outcomes Assessment
During this session participants will experience first-hand successful strategies used to help gain faculty support during the refinement and enhancement of our program-level student learning outcomes (SLOs) process. This session will engage participants in selected interactive exercises used while gaining support to “demystify” SLOs.
Cheryl B. Gilchrist and Cathy Bays, University of Louisville
Measuring Self-Awareness and Professionalism Competence
Indiana University School of Medicine utilizes a peer and self-assessment program to help students grow in their self-awareness and professionalism. Students document and discuss their growth over a three-year period regarding their personal attitudes, their impact on colleagues & patients, and their working compatibly in a health care team.
Carolyn A. Hayes and Amanda J. Croy, Indiana University

How to Change a Culture
Successful assessment often requires changes in institutional culture. This presentation presents lessons learned from three efforts at culture change: revising the Freshman English Program at Ball State University, changing writing instruction in Indiana public schools through the Indiana Writing Project, and building a culture of assessment at Sullivan University.
Forrest T. Houlette, Sullivan University

Developing a Faculty Consultant for Program Review: Effective Strategies for Program Review at Small Institutions
Presenters share the process developed at their university to guide departments through program review. Learn to assist programs by running an assessment audit. Gather effective strategies for developing cohorts, facilitating peer-review, and preventing documents from gathering dust. The faculty consultant, an education professor, presents her process; faculty share their experiences.
Lynn Murray-Chandler and Nathan Sullivan, Franklin Pierce University

Recognizing the Role of Professional Development in Assessment
The purpose of this session is to engage faculty and administrators in discussion and creative strategic planning on the general topic of recognizing the roles of assessment work in faculty professional development and also in determining what to recognize as scholarship within the broad categories of assessment activities. Too often, faculty are encouraged to look to their academic disciplines as sources for professional development, when their academic training may be removed from their daily work. The participants will explore how to realize what the “student-conscious scholar” looks like on their campus and to define the roles of “discovery, memory, and mentoring” within the assessment context (Christensen and Eyring 377). In addition, special attention will be paid to developing leadership models for the future, in line with Hutchings, et al. (2011) since the relationship...
between assessment activities, academic scholarship, and professional development are not as interconnected and valued as they could and should be within the scholarly community. The takeaways for the session are a profile of the assessment oriented student-conscious scholar, a series of questions or topics to enable the faculty and administration to prompt the discussion of the places of discovery, memory, and mentoring within the context of assessment scholarship, and a matrix for aligning professional development activities in assessment with the goals and understandings fostered by Scholarship of Teaching and Learning Reconsidered.

Beverly Schneller, The University of Baltimore; and Lisa Shibley, Millersville University

**Track: 07I (AM) Poster Session**

**A Systems Analysis View of Assessment and Capstones: The University of Guam Experience**
General Systems Theory (GST), with roots going back to Professor Ludwig von Bertalanffy in the 1930s, has applicability in many areas including education and assessment. In GST, a system is recognized as a set of components that interact to achieve some purpose. Among these components, we can identify the functions of input, processing, and output linked together by feedback and control. And since systems are never in complete isolation, we can see systems as part of super-systems, and their functional components making up subsystems. This research applies this paradigm to some assessment efforts and capstone courses at the University of Guam (the only US Land Grant University in the Western Pacific).

Carl Swanson, University of Guam

**Track: 07K (FD) Poster Session**
**Time:** 5:00 - 7:00 p.m.  
**Room:** Marriott 7-10 Foyer (Table No. 11)

Gaining Meaningful Information from Portfolio Reviews to Assess the Quality of Graduate Programs and Student Learning
Participants will learn how they can design and use portfolios to assess student learning and assess the overall quality of academic programs. They will evaluate how the analysis of student reflections about their course-embedded assessments provides meaningful information about the achievement of program-level learning outcomes.

Elizabeth Jones, Michael McKeever, and Rosemary Parmigiani, Holy Family University

Assessing Student Learning at the Graduate Level: Four Core Areas through a Common Activity – A Pilot Study
UMUC panel shares processes and results of a 2012 pilot - developed to simplify the graduate school's yearly assessment process. The pilot implemented a single common activity - assessing four student learning outcomes with one rubric. Engage in conversations and activities with the panel and audience to determine aspects and results that could benefit your assessment plans.

Datta Kaur Khalsa, Yan Zhang Cooksey, and Kathryn Klose, University of Maryland University College

Primary Tracks: (AC) – Accreditation; (AM) – Assessment Methods; (CP) – Capstone Experiences; (CC) – Community College; (CE) – Civic Engagement; (EP) – ePortfolios; (FD) – Faculty Development; (FY) – First-Year Experiences; (GE) – General Education; (MJ) – Majors; (NI) – NILOA, and (SD) – Student Development
Moving from National to Regional Accreditation: Implications for Assessment Processes
Transitioning from national to regional accreditation demonstrates important differences in assessment standards. The presentation explores insights from interviewed school representatives highlighting how successful transitions have affected assessment practices, and highlights how West Coast University has been able to leverage National accreditation standards while significantly changing assessment approaches to meet regional standards.
Errin K. Heyman, West Coast University

The Meaning of Learning Outcomes – Depending on What You Do and Where You Stand
The meaning of learning outcomes defines what is valued as important and appreciated as student learning. A review of the research literature indicates that there is a dominant, established definition of the term learning outcome. However, a wide range of alternative definitions have also been identified. This paper aims to highlight and compare how different actors (international scholars within the educational field, Norwegian teachers and Norwegian policy makers) conceptualize learning outcomes within their particular context. A situation of competing meanings for what learning outcomes constitute may lead to misunderstandings between central actors within education. This presentation will highlight potential pitfalls and discuss possible ways around them.
Tine S. Proitz, Nordic Institute for Studies in Innovation, Research, and Education

Building a Culture of Improved Learning, Student Engagement, Communication, and Assessment Using Rubrics
This workshop is designed to provide attendees with hands-on experience in understanding rubrics for learning as well as assessment tools. It features activities to help attendees learn methods in which to engage students for better understanding of topics, role of rubrics in communication, and the merits of clear rubrics for all stakeholders.
Jill D. Shedd, Indiana University; and Ramesh Sabetiashraf, Reazon Systems, Inc.

First Steps in the Development of Marshall University’s Degree Profile
With the aim of developing its own unique Degree Profile, Marshall University has initiated a comprehensive project in which 92 degree programs (both undergraduate and graduate) are testing the usefulness of the Lumina Foundation’s Degree Qualifications Profile. We will share our project’s strategies and results.
Mary E. Reynolds, Gayle L. Ormiston, and Karen L. McComas, Marshall University

Utilizing Step-By-Step Strategic Planning to Close the Co-Curricular Assessment Loop
Great strides have been made to measure student learning through academic assessment, but too often, measuring student learning through co-curricular programs remains underanalyzed. This presentation will discuss one campuses’ attempt to bridge this gap through a 5-step mobilization process of co-curricular leadership engagement, strategic assessment planning, and implementation to measure student learning.
Shawna L. Lafreniere, Azusa Pacific University

Developing an Assessment Protocol of Campus Ministry
Student learning occurs in many areas of an institution outside the traditional classroom setting. This presentation explains how one institution developed comprehensive learning goals and a corresponding assessment protocol to provide a mechanism of continuous improvement in its Office of Campus Ministry.
Pat Mizak, Ringling College of Art and Design

Assessing Sustainability Education in a Transdisciplinary Undergraduate Course Focused on Real-World Problem Solving: A Case for Disciplinary Grounding
In response to the UN Decade of Education for Sustainable Development (2005 – 2014), universities are incorporating sustainability into their programs. This case analysis-based assessment reveals the importance of considering students’ predispositions and disciplinary...
affiliations, as well as the overall curriculum structure, as universities make sustainability part of transformative undergraduate education.

**Assessing and Supporting Academic Success of First-Generation First-Year Students**
First-generation students are an important college-going population facing unique challenges. This session will describe Butler University’s Task Force on First-Generation Students that combined research and assessment with outreach and programming for first-year students. We will share analyses about first-generation students and suggest ways to implement collaborative assessment and outreach efforts.

Jennifer Buckley and Nandini Ramaswamy, Butler University

---

**Using Assessment Information to Understand the Transfer-Out Students’ Needs and Expectations**
Are students who matriculate intending to transfer inherently different from students committed to graduating? Using national retention assessment information, we compare/contrast common persistence and success factors between these two populations and discuss how our institution works to either support the transfer-out process or entice the intended transfer-out student to stay.

Jennifer Oxtoby and Greg Anderson, Indiana University-Purdue University Fort Wayne (IPFW); and Darlena Jones, Educational Benchmarking, Inc.

Track: 09I (EP)
Time: 10:15 - 11:30 a.m.
Room: Lincoln

**Longitudinal Student Assessment and the ePortfolio**
In the summer of 2011, members of Western Michigan University’s Department of History embarked on a one-year intensive reworking of current assessment strategies. With the assistance of an internet-based student portfolio system the department has designed a dynamic assessment tool allowing greater accuracy and a longitudinal understanding of student progress.

James P. Cousins and Edwin Martini, Western Michigan University

Why Assessment is Still Not Embedded in Higher Education (and What Can be Done to Improve the Situation)

Approximately 25-years after assessment of student learning became the new standard for institutional effectiveness, assessment remains a behavior just outside the operational norm in higher education. Enough time has passed so that assessment should be part of institutional culture. Despite the accreditation mandates and the obvious implied teaching contract between higher education and society, why is the adoption of the assessment of student learning still an issue, and what can be done to smooth the transition?

Michael B. Daniel, Columbia Southern University

Using Faculty Satisfaction Survey Results to Revitalize Governance Structures

Faced with another national faculty survey, the Pace University faculty lobbied for their own locally created Faculty Satisfaction Survey. The first faculty survey created by faculty for faculty received broad support. Learn how the faculty-driven process and survey findings reinvigorated faculty governance structures to take action steps toward improvement.

Barbara S. Pennipede and Joy D. Tatusko, Pace University

Voluntary System of Accountability and Learning Outcomes: An Update

Presenting evidence of student learning to multiple audiences in meaningful ways is a difficult yet increasingly necessary task for higher education. This session will discuss NILOA’s work with transparency of presenting assessment information and present the key findings from a study of the Voluntary System of Accountability (VSA) student learning outcomes assessment pilot portion of the College Portrait. The session will include a discussion on how the VSA used the findings to determine additional options for institutions to measure and report learning outcomes. The presentation will end with a discussion of the tensions between responding to demands of accountability and presenting meaningful evidence of student learning to a variety of audiences.

Teri Hinds, Voluntary System of Accountability Program; and Natasha Jankowski, NILOA

Using an Online Homework Management System to Assess Student Learning

Using an online homework manager makes grading homework a snap, but do students really learn by using it? This presentation provides suggestions for developing a course that uses an online homework management system. Participants will learn how to (a) structure a
course to include an online homework manager and (b) use the online homework manager to assess student learning.

Anita R. Morgan, Indiana University East

Track: 09N (CE)  Concurrent Session
Time: 10:15 - 11:30 a.m.  Tuesday, October 30, 2012
Room: Indiana Ballroom G  Beginners and Advanced

Assessment of Service-Learning: Theories and Tools for Investigating Student (and other) Outcomes
Drawing on the recently released edited volume Research on Service-Learning: Conceptual Frameworks and Assessment (Clayton, Bringle, & Hatcher, 2013), in this interactive session we will discuss the use of theory to refine goals, guide design, and conceptualize and interpret evidence of outcomes in service-learning (focusing on student outcomes and, depending on participant interest, broadening to include community and/or faculty outcomes as well). Together we will (a) examine the purposes and practices of assessment in service-learning through the lens of a conceptual model for research; (b) consider examples of theory-grounded assessment in service-learning, including sample tools for measuring outcomes; and (c) determine particularly useful theories and tools and generate associated assessment strategies for use in our own contexts.

Patti Clayton, IUPUI and PHC Ventures; and Kristin Norris, IUPUI

Track: 09O (CC)  Concurrent Session

We’re Doing It, and You Can, Too! Assessing College-Wide Student Learning Outcomes at a Community College
Normandale Community College has created a process for assessing its college-wide learning outcomes that is receiving broad support across the campus. In this interactive workshop, participants will take away both useful tools and a model for assessment of college-level outcomes that they can adapt for use at their own institutions.

Erin B. Daly and Julie Guelich, Normandale Community College

Track: 09P (MJ)  Concurrent Session
Time: 10:15 - 11:30 a.m.  Tuesday, October 30, 2012
Room: Indiana Ballroom C/D  Advanced

Post-Graduation Assessment: Beyond Satisfaction
This interactive workshop focuses on improving the gathering of evidence of the achievement of outcomes from alumni, employers, and other stakeholders. The presenters provide an example of post-graduation assessment, share information from a nation-wide survey concerning post-graduation assessment, and outline one university’s strategies to enhance gathering evidence about our students post-graduation.

Ruth E. Cain and Marcia A. Miller, Indiana State University

11:30 a.m. – 12:30 p.m. ~ LUNCH on your own in Indianapolis
The Evolution of Our Matrix: A Method of Shared Accountability
Western Illinois University assessment personnel have experienced success using a simple, but effective matrix to report assessment of student learning results across the university. This presentation outlines the process of developing and introducing the matrix, implementing the tool in stages, and utilizing the matrix to emphasize best-practices.
Nancy P. Parsons and Lori M. Baker Sperry, Western Illinois University

Moral Imagination and Coal Mining: Using Dewey, Bloom, and Bluegrass to Engage Ecological Controversies Affectively
This presentation combines Dewey’s Moral Imagination with Bloom’s Affective Taxonomy to create an effective strategy for engaging ecological controversies. It will present the findings of two case studies of a module that apply this strategy to coal mining in Appalachia using Bluegrass music to assess its impact on student learning.
Albert R. Spencer, Portland State University

Faculty Development for Online Institutions
The goals of this presentation will address methods to plan, organize, and develop successful faculty development for an online program. The presentation will cover the use of technology to collaborate and coordinate faculty development from within the university as well as ways to promote independent professional development. Technology topics will include web conferencing, shared documents through cloud technology, and interactive online training sessions. This presentation will address methods that foster faculty engagement which are grounded in research, as well as provide examples of successful development in a current online program.
Tiffany Hamlett and Mary Bold, American College of Education

How Effective are Adjunct Faculty and Online Instruction?
This research analyzed faculty and delivery modality effectiveness using student end-of-course survey data (>65,000 surveys) for a year (July 2010 to June 2011) from adult programs at a private, not-for-profit, Christian university. Full-time were perceived as more effective than adjunct faculty, while online curriculum was more effective except for faith issues.
Harry D. Hall, Indiana Wesleyan University

Creating a Campus Culture of Assessment Through Professional Development Opportunities for Faculty
In her 2010 NILOA Occasional Paper, Pat Hutchings offered 6 recommendations for involving faculty in assessment. This session will explore concrete faculty development activities under Hutchings’ recommendations to create a culture of assessment. The interrelationship among activities will be addressed allowing for a more comprehensive plan for faculty involvement.
Shannon M. Sexton, Rose-Hulman Institute of Technology
Track: 10C (AM)  Concurrent Session
Time: 12:45 - 2:00 p.m.  Tuesday, October 30, 2012
Room: Marriott 3  Advanced

Developing an Institution-Level Perspective on the Effectiveness of Administrative Units
While assessment at the unit level is essential to programmatic improvement, it is also important to review and respond to data at an institutional level. The presentation highlights a process used to aggregate assessment of individual units into an institutional perspective that can be used for institutional and strategic decisions.
Juliana S. Lancaster and Austen Krill, Georgia Gwinnett College

Track: 10D (CC)  Concurrent Session
Time: 12:45 - 2:00 p.m.  Tuesday, October 30, 2012

**Understanding an At-Risk Population Using Assessment Data: First-Generation Students**
First-generation students comprise a large percentage of college students and are at higher risk for attrition and poor academic performance than others. Using national retention assessment information, we identify key differences in characteristics and persistence factors between first-gens and continuing students and discuss how our institution helps these students succeed.

Stephanie Pearcy, Indiana State University; and Darlena Jones, Educational Benchmarking Inc.

**Track: 10I (EP)**
**Time:** 12:45 - 2:00 p.m.  
**Room:** Lincoln  
**Concurrent Session**

**A Learner-Centered Curriculum Model Where Learners’ Voices Drive Curricular Change**
This workshop introduces a program assessment model where the learner’s voice plays a central role in curriculum development. Participants will explore learner-centered curriculum, understand how findings from an assessment project informed curricular changes to improve student learning, and evaluate ways they can implement all, or pieces, of this model.

Scott Berlin, Shelley D. Schuurman, and Julie Guevara, Grand Valley State University

**Track: 10J (AM)**
**Time:** 12:45 - 2:00 p.m.  
**Room:** Santa Fe  
**Concurrent Session**

**Work-Based Evidence of Student Competence Attainment: An Introduction to the Internship Competence Assessment Project**
This presentation provides an overview of how Johnson & Wales University has engaged in an innovative longitudinal assessment of student competence during internships and the results tabulated after one academic year of data collection. Results show student gains in the core areas of problem solving, communication, collaboration, work ethic and professionalism.

James Griffin, Maureen Dumas, Greg Lorenz, Johnson and Wales University

Evaluating the Implementation of the Curriculum Enhancement Grant Initiative

In 2010, the Center for Teaching and Learning implemented a new faculty development initiative called the Curriculum Enhancement Grant (CEG). A utilization-focused evaluation was used to answer key formative and summative evaluation questions during the pilot year. Evaluation findings and resulting changes in the initiative will be discussed.

Terri Tarr, Jacqueline Singh, and Pratibha Varma-Nelson, IUPUI

Examples of Good Assessment Practice: Selected Stories from the Field

This panel will begin with an overview of findings from NILOA’s cross-case analysis report, Closing the Assessment Loop: an Examination of Good Institutional Assessment Practices across Institutions, before turning to representatives from several case study institutions. Institutional representatives will respond to questions addressing: challenges of assessment and how they were overcome; building and sustaining a culture of assessment; and using evidence of student learning to ‘close the loop’. Participants are invited to engage with panelists throughout the presentation.

Jillian Kinzie, Indiana University and NILOA; Marisa Klages, LaGuardia Community College; Veronica Martinez, Texas A&M International University; and Gianina Baker, National Institute for Learning Outcomes Assessment, (NILOA)

Data Collection Strategies: Lessons Learned from the Field

Everyone agrees—quality assessment data must be collected; however, there appear to be no guidelines on how to achieve this. Many institutions have used a method often referred to as Assessment Days (A-Days). This session will feature A-Day stories of five institutions, and the distinctive lessons they have learned.

Donna Sundre, James Madison University; Bobby Sharp, Appalachian State University; Karen Smith Vittengl, Truman State University; David Wiles, University of Miami; and Katherine Draughon, University of Southern Illinois

Exploring New Models for Campus-Wide Assessment

This interactive workshop addresses shortcomings of traditional models for assessing campus-wide learning outcomes in institutions with unique curricular structures and provides participants an opportunity to explore new models for their institutions. Illustrating our process, successes, and challenges, this presentation will offer a framework for affordable and increasingly necessary campus-wide assessment.

Tyler H. Matta, Rowanna L. Carpenter, and Annie Knepler, Portland State University

Primary Tracks: (AC) – Accreditation; (AM) – Assessment Methods; (CP) – Capstone Experiences; (CC) – Community College; (CE) – Civic Engagement; (EP) – ePortfolios; (FD) – Faculty Development; (FY) – First-Year Experiences; (GE) – General Education; (MJ) – Majors; (NI) – NILOA, and (SD) – Student Development

**Assessing Assessment: Taking Stock On Your Own Campus**  
What's been called the "assessment movement" has been going for more than twenty-five years now. In the course of these two decades assessment awareness and approaches have grown substantially, but assessment has yet to make the kinds of differences in teaching and learning that its original proponents hoped. This highly interactive session is designed to help you take stock of assessment efforts on your own campus, identify obstacles, and, with the help of others, identify what might be improved.  
Peter T. Ewell, National Center for Higher Education Management Systems

**Track: 10P (CC)**  
**Time:** 12:45 - 2:00 p.m.  
**Room:** Marriott 6  
**Concurrent Session**

**Dynamic and Continuous Programmatic Assessment, Planning, and Evaluation**  
This session will describe a program-level assessment model that promotes the continuity of assessments, data collection, and triangulation of analyses through central oversight and transparent feedback. The structure fosters a culture of assessment and processes described may be applied and tailored to meet a variety of college specific assessment needs.  
Helen K. Garces and Christina Munson, University of Kentucky College of Pharmacy

**Using Data to Measure, Predict, and Enhance Retention**  
We will work with participants to identify key data elements that can inform, predict, support, and enhance retention. We will focus on utilizing multiple, readily-available data sources, and explain how, when examined together, they can improve retention. Finally, we will explain these data enable predictive modeling to optimize student retention.

Assess the Capstone Assess the Program
A capstone course that ties learning outcomes directly to program goals can be a powerful assessment tool that can suggest large modifications like course additions, course sequencing, and course content focus throughout a 4-year program, as well as small things like discipline-specific mechanics.

Peter M. Carriere, Georgia College and State University

Using Assessment and Satisfaction Data to Improve the Mentor Model for Facilitating Customized Professional Projects at Cleary University
At Cleary University, seniors produce projects customized to the specific needs of individual students. A faculty mentor works with students to complete projects and align this with their professional and personal development goals of the student. Project curriculum changes are made using an in-house survey that captures outcomes and satisfaction data.

David Castlegrant and Stewart Brannen, Cleary University

Connecting Capstones to Curriculum: Ideas for Using Assessment Data
Capstone units provide an ideal opportunity to assess curricular learning outcomes prior to graduation, in theory. In practice, curriculum is often neglected and capstones simply provoke the “oh my” gaps in student learning. This workshop will engage participants in thoughtful discussions on strategies for connecting capstones to the broader curriculum and clever ways for using assessment data to drive curricular conversations with colleagues.

Kelly Matthews, University of Queensland

Collaborative Assessment: Creating a Culture of Evidence
At The College at Brockport, we view assessment as collaborative, intentional, and meaningful. This session will focus on creating the foundation for a “culture of assessment” through a collaborative approach to integrated assessment of programmatic and learning outcomes in enrollment management and student affairs. Participants will leave with strategies and resources to take back to their campuses.

Sara M. Kelly and Joshua Fegley, The College at Brockport, SUNY

Enhancing Retention and Learning: An Effective Use of Assessment Data
Improving retention and learning is the mission of every institution and assessment is the link. We discuss our previous retention efforts, how those efforts prompted an assessment project leading to establishing learning environments, and how those learning environments have helped improve retention.

Steven J. Hawks, Kansas State University; and Darlena Jones, Educational Benchmarking Inc.
Providing Clarity for Students and Faculty while Tracking Student Progress and Reporting Data for Accreditation

The PhD program faculty in School Psychology at Indiana University collect and assess various submissions by students in a seamless fashion. The program utilizes an easy-to-use ePortfolio system with strong organization and assessment components to monitor student performance, improve aspects of the PhD program, and manage data for accreditation reports.

Jack Alan Cummings, Indiana University Bloomington; and Ramesh Sabetiashraf, Reazon Systems, Inc.

Mirror, Mirror on the Wall: Strategies for Developing Reflective Teachers

Reflective practice is a cornerstone of professional preparation programs such as teaching. This session will share strategies for developing and demonstrating critical reflection skills in conjunction with portfolio construction and assessment. The role of faculty and school-based mentors in guiding student reflection and development of improved practice will be discussed.

Linda H. Espey and Sharon Evans Brindle, Grand View University

Using “Data Dashboards” to Sustain Student and Faculty Engagement in Assessment

rGrade is an integrated assessment system that serves as a data hub for on-going performance assessment with rubrics, program evaluation, and accreditation reporting using student-level data. In this presentation, we will present rGrade “data dashboards” from four perspectives: student, instructor, program, and unit.

Megan S. Noel and Matthew Stuve, Educational Informatics; and Lisa Huffman, Ball State University

Assessing Learning Outcomes: Changing Habits of Mind and Transforming Universities into Learning Communities

Participants in this session will be exposed to the results of an investigation of the reasons for the success of a program learning outcomes assessment process in some departments and failure in others at an accredited mid-size university in Lebanon. Participants will also discern lessons learned from this process.

Saouma B. BouJaoude and Amal BouZeineddine, American University of Beirut

Program Development and Outcomes of a Peer Observation and Evaluation Process at a School of Pharmacy

This session will describe a peer teaching assessment program that incorporates a valid and reliable peer observation and evaluation tool (POET). Program evaluation results and

Before and After: What Undergraduates and Alumni Say About Their College Experience and Outcomes
Little is known about how undergraduate student responses compare with those of alumni. Does the passage of time change the capacity of people to reflect on their learning experiences during college? How might the major field experience affect the self-reported experiences of students and alumni? In this session, we will discuss the implications of an analysis of results from institutions that have administered the Strategic National Arts Alumni Project and the National Survey of Student Engagement comparing the self-reported college experiences and skill development of college seniors and alumni who majored in the arts as well as comparing non-arts students with those studying the arts.

**How Do You Know Your Gen Ed Program Is Effective?**

General Education is the foundation for student learning. The mastery of these outcomes defines the student and the school from which they come. Find out how Taskstream helps colleges and universities to track student learning outcomes across courses and programs, map them against relevant Gen Ed standards, and use the results to focus and revitalize their Gen Ed programs. Examples include a university with 175 programs, a thousand faculty members, and 15,000 students all taking their own unique combination of courses.

**Assessing Students’ Social Responsibility and Civic Learning**

Many campuses have clear commitments to public service—through community partnerships, curricular-based service-learning, and recognition of civic-minded practice in the evaluation and promotion of faculty work. While we know many students enter college having participated in volunteer work or community service, there is much assessment work to do in terms of monitoring students' developing civic action, values, and commitments as part of institutional goals to educate responsible citizens. This presentation will use data from CIRP surveys to examine both indicators and the aspects of students’ college experiences that advance civic learning outcomes.

Getting the Most for Your Accreditation Consulting Dollars  
Institutions faced with an accreditation visit sometimes want the reassurance of having experts help them with documenting and presenting their accreditation data, or with reviewing and finalizing their documentation. The consulting experience can be a positive learning experience with a successful outcome or a costly mistake. Achieving a successful outcome depends on careful planning, realistic expectations, and the ability to manage the process. This presentation provides guidelines for clearly identifying the need, defining the scope of the work, determining the anticipated deliverables, and monitoring progress throughout the process in order to achieve a cost-effective, successful consulting experience.

The Updated NSSE: Launching in 2013  
After years of evidence-based testing and institutional feedback, NSSE has updated its survey instrument for 2013. The 2013 survey introduces new measures related to effective teaching and learning and introduces a broad range of Engagement Indicators – successors to the benchmarks – to enable richer and more targeted assessment opportunities. NSSE also introduces the option to append topical modules on academic advising, civic engagement, technology, and more. This session will explain how the survey has changed, present new customization options, and preview how assessment professionals can maximize new NSSE results.

HOW DO YOU KNOW
YOUR STUDENTS ARE MASTERING
THE SKILLS THEY NEED?

Since 2000, Taskstream has been advancing the practice of outcomes assessment to improve student learning. That’s why you can rely on us to help you know if your students have the skills they need.
