The system of choice for

Planning
Assessment
Accreditation

Your world made simpler

Xitracs™

Assessment · Planning · Accreditation

PLANNING

Build your plans and link them to departments or use an auto-generate feature to let Xitracs create plans that match your organization structure. Engage faculty and staff so they can set and align goals and objectives easily via a mobile-friendly portal. Track progress online and report gaps and exceptions. Publish the plan report with a click in the format you need.

- ✓ Customizable reporting fields and timeframes
- ✓ Easy goal-to-goal and plan-to-plan alignment
- ✓ Workflow for review and approval
- ✓ Goal tracking over time
- ✓ Progress snapshot

Choose the Xitracs Planning module

ASSESSMENT

Build a library of GenEd, Program and Course learning outcomes. Link rubrics and set values. Connect to your LMS. Set reporting timeframes for both academic and non-academic programs. Assign faculty and staff to programs to gather objectives and report progress via the mobile-friendly user portal. Generate reports in a variety of formats at summary and detailed level to support additional downstream analytics.

- ✓ Outcomes library with associated rubrics
- ✓ Curriculum mapping
- ✓ Course and juried assessments
- ✓ LMS integration
- ✓ Academic and non-academic program reporting with customizable fields

Choose the Xitracs Assessment and Programs modules

ACCREDITATION

Select from a wide range of agency self-study templates for both regional and program accreditation. The standards are pre-installed, you add the people. Upload or drag-drop your evidence and start writing. Engage faculty and gather their input via a mobile friendly portal. Now you can set timelines and due dates and track progress toward completion. Publish the report with a click in the format you need.

- ✓ Pre-built self-study templates
- ✓ Easy narrative and evidence preparation
- ✓ Progress tracking
- ✓ Comprehensive credentials management and roster reporting
- ✓ One-click publish to Website, PDF and MSWord

Choose the Xitracs Standards and Credentials modules

Xitracs™

MODULAR, AFFORDABLE and FEATURE-RICH

Built from the ground up to meet the needs of higher education institutions, Xitracs is a modular and affordable solution with the features and functions you need to manage your planning, assessment and accreditation activities.

Its flexible, web-based architecture lets users access the system easily, securely and at anytime and from anywhere.

Choose the modules that fit your institution's requirements. Xitracs gives you the reports you need with the ease your faculty and staff want.

Each module gives you key features and more

- ✓ Unlimited users
- ✓ 100% web browser-based
- ✓ Resource library and calendar
- ✓ Glossary
- ✓ Mobile-friendly portal
- ✓ Context-sensitive online help
- ✓ Secure encrypted FERPA-compliant access and storage

GET ENHANCED FUNCTIONALITY WITH THESE XITRACS ADD-ONS

Activity Reporting
Give faculty a simple and intuitive tool to capture and report activities such as publications, research and service, plus create portfolios for employment, tenure and other purposes.

Credentialing
Automate your process of credentialing new faculty or existing faculty to teach new courses. The customizable forms and workflow steps makes it easy to replace an existing paper-based system.

DataView
Export selected system information in a database table format. Provides a simple solution to access data in format you can use for downstream analytics.

Let us show you how Xitracs can address your planning, assessment and accreditation needs.
