

# The IUPUI CyberLab

The CyberLab is a university-based research and entrepreneurship laboratory focusing on the development and commercialization of new teaching and learning technology. The lab was established in 1996 and is located on the campus of IUPUI in Indianapolis, Indiana.

It is the birthplace of some highly successful projects: **OnCourse (Sakai)**, **ANGEL Learning**, **Epsilon**, **CourseNetworking (The CN)**, and **Rumi AI Agent**.
