- MPH Epidemiology
- MS in Biostatistics & MPH in Public Health Informatics

Strategies for Outreach

STRATEGIES FOR OUTREACH

Combination of purchasing and building lists

- Started with programs that needed the most support
- Purchased GRE names for prospects interested in biostatistics and informatics
- Conducted market research to understand which undergraduate programs could serve as feeder schools for our biostatistics and informatics programs
- Manually built lists of program directors and advisors at potential feeder schools
- Created email campaigns to target all lists

The MS in Biostatistics application deadline is now August 1! Learn about the program and its application requirements for the fall.

We're thrilled to share that the Master of Science in Biostatistics program at the IU Richard M. Faitbanks School of Public Health has extended its application deadline to August 1st for fall 2020 enrollment.

The only MS in Biostatistics in the state, this program will provide you with the foundation you need to be a highly competitive candidate for today's biostatistics jobs. You will discover exceptional faculty, nationally-recognized research, an amazing network of alumni and mentors and exposure to top visiting experts.

Ready to learn more?

Take a moment now to browse our website and admissions criteria, and reach out to Sue Hancock at suehanco@iu.edu with any questions you have.

We look forward to hearing from you!

Virtual Information Sessions

- 1. Developed a concept that worked well for graduate recruiter, program directors, and virtual participants (from registration to actual event)
 - Program Director & recruiter hosted 1-2 one-hour sessions monthly via Zoom
- 2. Promotion via:
 - web content
 - ongoing email campaigns
 - social media advertising (organic)
- 3. Implementation of sessions rested mostly with recruiter and program director
